Magazine Bushing Replacement

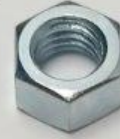

1 - Put bushing & bolt in magazine side plate.
Make sure large flange is installed correctly & seated all the way in.

2 - Put 2 washers and nut, tighten by hand snug.

3 - Use a box wrench and an allen wrench to tighten the assembly until you can't turn it any more.

4 - Remove hardware from assembly, inspect bushing, make sure it doesn't turn in side frame. Check your shaft for fitment, you may need ream it to fit. You are now ready to re-assemble your magazine.
